

# Georgia's Safe Access Accountability Commission

Accountability in action for safe and clean medicine for Georgia's patients

HARRIS AND ASSOCIATES LLC

HARRIS AND ASSOCIATES

# Who We Are

**Cannabis and Hemp patients  
and industry stakeholders**

# **There are over 18,000 registered patients on GA's low THC registry.**

Patients, Doctors and Caregivers are still waiting on oversight provisions for this program, legal service providers and education for patients, business owners and consumers.

# Georgia's Safe Access Accountability Commission

Patients need medicine, business owners need legal protections and education about the plant must occur to remove false stigmas.

---

**Safe Access  
Decriminalization  
Harm Reduction**

# LET'S NOT PROCRASTINATE

While the state continues to determine provisions for their programs, citizens and stakeholders can connect with our commission to take action.

# CORPORATE RESPONSIBILITY

Previous laws negatively impacted various communities and we must ensure new policies eradicate that harm. We need programs that make sense, funded by the money collected both publicly and privately.
